

Causeway Green PRIMARY SCHOOL

Policy for

DRUGS AND ALCOHOL

Approved by Governors:
Review Date: July 2019

1 Aims and objectives

- 1.1** We aim to equip children with the knowledge, understanding and skills that enable them to make the sort of choices that lead to a healthy lifestyle. Our drugs and alcohol education programme has the primary objective of helping children to become more confident and responsible young people. We teach children about the dangers to health posed by drug-taking and alcohol abuse, and we aim to equip them with the social skills that enable them to make informed moral and social decisions in relation to drugs and alcohol abuse in society.
- 1.2** The objectives of our drugs and alcohol education programme are:
- to provide children with knowledge and information about illegal drugs and alcohol and the harmful effects they can have on people's lives;
 - to enable children to discuss moral questions related to drug taking and alcohol abuse, and so provide a safe environment for young people to share their thoughts and ideas;
 - to help children become more self-confident so that they are able to make sensible and informed decisions about their lives;
 - to let children know what they should do if they come across drugs and alcohol, or are aware of other people misusing drugs and alcohol;
 - to help children respect their own bodies and, in so doing, reduce the likelihood that they will be persuaded to become involved in drug or alcohol abuse;
 - to show that taking illegal drugs and drinking alcohol is a moral issue, and that choices about drugs and alcohol are moral choices;
 - to ensure that all children are taught about drugs and alcohol in a consistent manner, following guidelines that have been agreed by parents, governors and staff.

2 Organisation

- 2.1** We regard drugs and alcohol education as a whole-school issue, and we believe that opportunities to teach about the importance of living a healthy lifestyle occur throughout the curriculum. Each class teacher answers questions about drugs and alcohol sensitively and appropriately, as they occur. In the routine circle-time sessions, we encourage children to discuss issues that are important to them, and we help children to be aware of the dangers of the misuse of drugs and alcohol. For example, if a child raises the issue of smoking, the teacher takes time to discuss its harmful effects with the whole class. In science lessons we teach children what a drug is, and how drugs are used in medicine. We also teach them the difference between legal and illegal drugs.
- 2.2** Drugs and alcohol education is an important part of our school's personal, social and health education curriculum. The main teaching about drugs and alcohol takes place in Upper KS2 (Y5 and 6), where the children are taught about illegal drugs and alcohol, and the dangers involved to those who take them. In teaching this course we follow the guidelines provided by the LA, and we receive advice and support from the Local Health Authority. The resources and materials that we use in these lessons are recommended either by the Health

Drugs and alcohol Education Policy

Authority or the LA. Lessons that focus on drug education form part of a sequence of lessons that are designed to promote in children a healthy lifestyle.

- 2.3** The children's class teacher teaches them drug education in normal lesson time. Sometimes the class teacher seeks support from the school nurse or another health professional. The teaching style that we use encourages children to ask questions and reflect on the dangers to health of drug and alcohol misuse. Children explore issues, such as why people take drugs and alcohol, and how they can avoid putting themselves in danger in the future. We give children the opportunity to talk in groups or to the whole class. We encourage them to listen to the views of others, and we ask them to explore why drugs and alcohol are such a problem for society.

3 The role of the headteacher

- 3.1** It is the responsibility of the headteacher to ensure that staff and parents are informed about this drugs and alcohol education policy, and that the policy is implemented effectively. It is also the headteacher's role to ensure that staff are given sufficient training, so that they can teach effectively and handle any difficult issues with sensitivity.
- 3.2** The headteacher will liaise with external agencies regarding the school drugs and alcohol education programme and ensure that all adults who work with children on these issues are aware of the school policy and work within this framework.
- 3.3** The headteacher will monitor the policy on a day to day basis and report to governors, when requested, on the effectiveness of the policy.

4 The role of governors

- 4.1** The governing body has the responsibility of setting down these general guidelines on drugs and alcohol education. The governors will support the headteacher in following these guidelines. Governors will inform and consult with parents about the drugs and alcohol education policy. Governors will also liaise with the LEA and health organisations so that the school's policy is in line with the best advice available.

5 The role of parents

- 5.1** The school is well aware that the primary role in children's drugs and alcohol education lies with parents. We wish to build a positive and supporting relationship with the parents of children at our school through mutual understanding, trust and co-operation. In promoting this objective we will:
- inform parents about the school drugs and alcohol education policy and practice;
 - invite parents to view the materials used to teach drugs and alcohol education in our school;
 - answer any questions parents may have about the drugs and alcohol education their child receives in school;
 - take seriously any issue which parents raise with teachers or governors about this policy or the arrangements for drugs and alcohol education in the school;

Drugs and alcohol Education Policy

- encourage parents to be involved in reviewing the school policy and making modifications to it as necessary;
- inform parents about the best practice known with regard to drugs and alcohol education so that the parents can support the key messages being given to children at school.

6 Monitoring and review

- 6.1** The curriculum committee of the governing body on an annual basis will monitor the drugs and alcohol education policy. This committee will report their findings and recommendations to the full governing body as necessary, if the policy appears to need modification. The curriculum committee takes into serious consideration any representation from parents about the drugs and alcohol education programme and comments will be recorded. Governors require the headteacher to keep a written record detailing the content and delivery of the drug education programme taught in the school.
