

## Causeway Green Primary School Acceptable Use Policy

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies provide powerful tools, which open up new opportunities for everyone. They can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

### This Acceptable Use Policy is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that parents and carers are aware of the importance of online safety and are involved in the education and guidance of young people with regard to their online behaviour.
- that young people's privacy is protected online.

The school will try to ensure that pupils will have good access to digital technologies to enhance their learning and will, in return, expect the pupils to agree to be responsible users. A copy of the Pupil Acceptable Use Policy is now in the children's planners, so that parents / carers will be aware of the school expectations of the young people in their care.

Parents are requested to sign the form below to show their support of the school in this important aspect of the school's work.

### Parent / Carer Acceptable Use Agreement

Parent / Carer Name

Pupil Name

As the parent / carer of the above pupil, I give permission for my son / daughter to have access to the internet and to ICT systems at school.

I know that my son / daughter has signed an Acceptable Use Agreement and receives ongoing online safety education to help them understand the importance of safe use of technology and the internet – both in and out of school.

I understand that the school will take every reasonable precaution, including monitoring and filtering systems, to ensure that young people will be safe when they use the internet and ICT systems. I also understand that the school cannot ultimately be held responsible for the nature and content of materials accessed on the internet and using mobile technologies.

I understand that my son's / daughter's activity on the ICT systems will be monitored and that the school will contact me if they have concerns about any possible breaches of the Acceptable Use Policy. I will encourage my child to adopt safe use of the internet and digital technologies at home and will inform the school if I have concerns over my child's online safety.

I am aware of the school policies and procedures relating to taking and using images of children. I understand that school will try to provide opportunities for parents and carers to take photographs of their own children. I will not take photographs or record videos which may include children other than my own. I understand that photographs and videos taken by parents and carers are for personal use only and that I am not to share images which include other children via social media or online.
